Student – Computer ratio (Data for the latest completed academic year)

4.3.2.1. Number of computers available for students usage during the latest completed academic year:

We acknowledge your requests regarding the number of computers available for student use. We would like to clarify the following:

4.3.2.1.1. HEI is requested to kindly provide Number of computers available for student use only.

Response:

The total number of computers available for student use is 23.

4.3.2.1.2. Please provide bills for the purchase of computers.

Response:

We have attached the bills for the purchase of computers, which were acquired prior to the assessment year. Please note that none of the 63 computers listed were purchased during the assessment year, but are still in use.

attached documents for above statement:

4.3.2.1.3. Please provide stock registers and highlight the entries of computers purchased in the stock registers.

Response:

Since all our computers were pre-purchased, it is not possible to identify each computer separately in the purchase bills. We have also attached the stock registers, highlighting the computers for students only. Therefore, we have provided combined bills for the purchases made, without separate identification of each computer.

4.3.2.1.4. Please note that computers for office and faculty use will not be considered under this metric.

Response:

We understand that computers for office and faculty use will not be considered under this metric, and our response only includes computers used by students.

4.3.2.1.5. Please note that computers purchased after the latest completed academic year will not be considered.

Response:

We confirm that no computers were purchased after the latest completed academic year, and our response only includes computers purchased prior to that year.

We hope this clarification and the attached documents meet your requirements.
