

Durgapur Women's College

Internal Quality Assurance Cell

The resolutions of Students meet convened by IQAC on 18.12.2018

IQAC of Durgapur Women's College organises an open meeting of students with all Faculty members at 11.30 AM in the AV Room.

Dr. D.C. Sen, the IQAC Coordinator, introduces the discussion and highlights the issues of importance for the students.

Sm. Sima Sil, the Office Assistant dealing with the students' affairs, clearly explains the procedure of registration for the convenience of the students. She advises the students to follow regularly the college website for necessary notifications & schedules. She also clarifies that the students need to fill up & submit their Registration forms on line to the college and not to the University directly.

The students asked about their I-card which some of the students have not received till date. Sm. Sil assures them that these students must meet her between 11 & 11.30 am on any working day and she will manually issue these cards. The digitized cards may be distributed later.

On suggestion of Prof. S. B. Sarbadhikari Mallick, Dr. D. C. Sen assures that as the students' attendance is too thin today for rainy weather this meet may be repeated sometime in mid-January.

Dr. D. Gupta apprises students about the cultural programmes of the college that usually held in November-December. She says that as these cannot be held till date partially because of new academic schedules under CBCS it may be scheduled in January 2019 & possible dates may be suggested by the students.

It is resolved that the dates may be fixed as follows,

Cultural Competitions : 4th & 5th January, 2019

Exhibition : 8th & 9th January, 2019

Dr. D. Gupta suggests some items of competition & seeks suggestions for the same from the students & teachers.

It is resolved that the items may be as follows:

Music, Dance, Poster painting, Aalpana, Spell words with sound, Group discussion, Debate, Quiz

Dr. Gupta further emphasises that only those competitions will be held for which at least ten competitors will enlist their names.

Dr. D.C. Sen suggests that all these decisions need to be circulated through college website. He also seeks from the students their observations in general regarding their semester or anything else which are of their concern. Mohima Khan, a student of 3rd Semester English Hons., raises the question of placement facility. She seeks support from the Entry in Service Cell, as previously the students received, for placement as well as training to face interviews for the purpose.

Dr. Gupta in response explains the problem that compelled presently to withhold this service. She points out that some vocational classes still being continued but students' response is too poor and with such meagre number of students classes cannot be viable enough. Besides the classes & campus selections can no longer be arranged because of acute fund crisis. Dr. D.C. Sen adds that previously a good number of students could get placement through this cell and Dr. Gupta informs that TCS has again expressed their willingness to arrange campus selection in this college as earlier selections had been quite successful. But college could not arrange minimum fund required for this purpose.

In this connection Prof. S. B. S. Mallick observes that from NSS students are given opportunity of joining Hobby class & Karate class. The students' reluctance to attend these classes forced the cell to discontinue these classes during last few months. She also informs that the scheduled awareness programme regarding cancer awareness has to be postponed but it will be held soon.

Prof. C. Das opines that a common platform may be arranged to keep students informed about all programmes as well as to give them space to communicate their problems/ requirements to the teachers / college authority.

Dr. D.C. Sen observes that such students' meet can be arranged in regular intervals.

Dr. R. Mukherjee draws attention to the drastic reduction in number of classes of Guest Lecturers which has left courses incomplete. Dr. D.C. Sen specifies that this reduction results in insufficient classes which are far less than the stipulated number of classes fixed by KNU. Sm. N. Bhadra & Sm. J. Mitra add that the students are also not at all attending classes regularly.

The IQAC coordinator expresses thanks to all present in the meeting and the meeting ends.
