SAY NO TO PLASTIC

Date & Time
14th August, 2024 | 10:00 AM

Plastic once hailed as a revolutionary material has now become one of the greatest environmental threats of our times. It is everywhere- in our homes, workplace, markets & even in the most remote areas . Long term plastic use has a devastating ill effect on nature& our lives .Hence we can “REDUCE,REUSE & RECYCLE”. We can use alternatives to plastics like jute/cloth bags, environment friendly products. We as parts of educational institutions thus came forward to make people aware of this fact & encourage our peer to make more sustainable choices. After all it is our responsibility to keep our planet safe.
