34 responses

The Syllabus has a good balance between Theory & Tutorials/ Practical work

34 responses

The course inculcates ethical and moral values among the students so as to make them good citizens

34 responses

Suggestions/remarks on the current curriculum

34 responses

NA

Good

The syllabus is properly defined and relevant but separate from that curriculum should include some moral valuable courses to make youth better and responsible.

Nothing as such

It would be beneficial to introduce more skill development programs that will further enhance students' skills and facilitate them to choose a better career.

Question papers & study materials must be provided.

Each and every paper syllabus are Vast.

Requesting to provide references book in accordance to the curriculum in library

Requires integration of practical skills.

1. Set up career counseling cell to guide students about their future career opportunities.
2. Introduce Project based learning opportunities .
3. Assessment evaluates creativity, critical thinking and problem solving skill of students instead of memorization.

The curriculum requires a comprehensive reading list

Need to change some tropics of the subject

Curriculum is ok

Would like to suggest that extra curricular activities like seminar, special lecture, workshop ect may have only one fixed day in week so that classes can be conduct and continued smoothly it would facilitate to complete syllabus according semester syllabus design and time tenure.

N/A

Need more time for completion of syllabus

Curriculum is sufficient.

Syllabus has relevance to real life situation but we need more text books in the library and it is necessary to introduce professional courses like Tourism development; Epigraphy; Archaeology, Museology, Fashion designing, Beautician courses, Mass communication, Social work e.t.c.

Current Curriculum is helpful for students but need time to time upgradation

Time management

No

New books are required in our college library as per revised syllabus according to NEP 2020 so that it much better helpful to the students....

Some portions of the syllabi need to be revised edition

The syllabus needs to be made more practical and action-oriented. The syllabus needs to be designed considering the current needs of the literature discipline in particular.

Overall, the curriculum is effective in achieving its learning objectives. Nevertheless, there is room for improvement in terms of relevance and industry alignment.

Curriculum is too broad.

The syllabus may need to be updated to keep up with the competitive exams.. And higher education, studies...

Overall the curriculum is fine

Number of books need to be increased, review of syllabus is needed

Curriculum must be more current economical issues oriented and there should be enough scope for acquiring practical knowledge from organisations/ industries

Syllabus should be minimised a little bit

Need some modifications
